Enhance clinical analytics using Redox Nova with Microsoft Cloud for Healthcare

As healthcare organizations continue to search for faster and smarter clinical and operational insights, many are turning to AI-enabled solutions. Redox Nova with Microsoft Cloud for Healthcare provides organizations the ability to deliver personalized care experiences, alleviate administrative burdens, boost care team productivity, and securely integrate healthcare data to optimize health outcomes. Other benefits include:

- Providing more personalized care
- Relieving provider administrative burden
- Boosting clinician productivity
- Enabling secure bidirectional communication for care coordination

**Redox Nova with Microsoft Cloud for Healthcare accelerates the transformation of healthcare data for easy ingestion in the cloud, giving healthcare organizations the tools to securely advance intelligent patient care delivery. Learn more here.**

## 35%
of surveyed healthcare providers will adopt AI-driven solutions by 2025 to support predictive care models[1]

## 40%
of surveyed Americans think AI in health and medicine would reduce the number of mistakes[2]

## 92%
of surveyed healthcare providers will most likely have implemented AI/ML by 2025[3]

Let's set up a time to talk about how AI-enabled technology can help your organization
